

6516208966.txt

Please keep the road and weather reports going. Truck drivers depend on them. Without this service many drivers could find themselves in hazardous conditions. This is a great service, not just for truck drivers, but for the general public. Anyone using this service can plan their routes for travel and know that they will be safe.

Do not let the NAB get away with trying to ban this service.  
Bernadette Vick (Bookkeeper for truck drivers)
